NATIONAL CONFERENCE ON ELECTRICAL SAFETY 2015

ORGANISER
ENERGY COMMISSION

DATE
9 NOVEMBER 2015

VENUE
DEWAN TUN HUSSEIN ONN, LEVEL 2,
PUTRA WORLD TRADE CENTRE,
KUALA LUMPUR, MALAYSIA

Safety statistics for the power sector shows an increasing trend in the number of electrical accidents happening in the country recently. Hence, there is an urgent need for us to make the industry safer and better. Among the main causes identified were improper installation and maintenance as well as inadequate safety procedures.

Undoubtedly, managing electrical risks and addressing power industry safety issues in recent years are becoming more and more complex and challenging. Business-as-usual control approaches and measures are mostly no longer adequate due to rapid changes in technologies and operating environments taking place in the power sector.

In this regard, I am pleased to announce that the Energy Commission will be organising the National Conference on Electrical Safety 2015 on 9 November 2015 at PWTC, Kuala Lumpur.

The National Conference on Electrical Safety will enable policymakers, industry players and consumers to get latest updates on policies, legislation, codes and guidelines as well as to network and exchange ideas and experiences on electrical safety best practices.

Experts and practitioners from government agencies, professional institutions, industry and consumer associations as well as our national utility will be presenting at the conference.

I look forward to your fruitful participation at the conference.

Thank you

Datuk Ir. Ahmad Fauzi Hasan
Chief Executive Officer
Energy Commission

OBJECTIVE OF CONFERENCE

The objective of this conference is to provide a platform for policy makers, regulators, industry players and consumer groups to discuss and share latest information and experiences on electrical safety towards enhancing safety performance in the country.

TARGET PARTICIPANTS

Consultants, contractors, training institutions, equipment suppliers, professional associations, industry associations, consumer associations, utilities, government agencies, competent persons and interested individuals.

9 NOVEMBER 2015 (MONDAY)

TIME	PROGRAMME
8.00 am	Registration
8.45 am	Welcoming Speech by Chief Executive Officer of Energy Commission Datuk Ir. Ahmad Fauzi Bin Hasan
9.00 am	Launching of Energy Commission Publication by Chief Executive Officer of Energy Commission Datuk Ir. Ahmad Fauzi Bin Hasan
9.15 am	Coffee break
9.30 am	Electrical Safety Legislation Updates – Towards Better Safety Management Practices Mohd Elmi Anas Director of Electrical Safety Regulation, Energy Commission
10.15 am	Competent Control of Electrical Installation -Issues and Challenges Murugiah Suppiah President of Institution of Certified Engineers Malaysia
11.00 am	Electrical Products Safety Requirements from the Perspective of Consumers Sara James Maniam Manager-Policy on Standards and Relative Activities of Malaysian Association of Standards Users
11.45 am	Lightning Protection System in Buildings Prof. Dr Ir. Mohd Zainal Abidin Ab Kadir Director of Centre for Electromagnetic and Lightning Protection Research, UPM
12.30 pm	Electrical Safety Management in Government Buildings Ir. Zuraidah bt Muhamad Senior Electrical Engineer, Malaysian Public Works Department
1.15 pm	Lunch
2.15 pm	Ensuring Water Heater Safety - Challenges in Design & Installation Ir. Looi Hip Peu Member of The Electrical and Electronics Association of Malaysia
3.00 pm	Enhancing Compliance to MS IEC 60364 - Standards for Residential Wiring Ir. Lim Kim Ten Committee Member of The Institution of Engineers Malaysia
3.45 pm	Substandard Cables - Challenges and Way Forward Lokman A. Dahlan Technical Advisor of Malaysian Cable Manufacturers Association
4.15 pm	Improving Electrical Safety Management in TNB Mohd Farith Osman Chief of Occupational Safety & Health, Asset Management Department, Tenaga Nasional Berhad
5.00 pm	Q & A Session
5.15 pm	End of Conference and refreshment
