Electricity tariff adjustment for Sabah, Labuan terminated

KOTA KINABALU: Sabah Electricity Sdn Bhd (SESB) said the RM1.20 cents per kWh electricity tariff adjustment for Sabah and Federal Territory of Labuan was terminated with effect from yesterday.

SESB senior general manager (Asset Development) Abdul

Nasser Bin Abdul Wahid said however, the existing electricity rate for the state and Labuan remained unchanged.

He said the government conveyed the decision to the utility company through the Energy Commission

"The Energy Commission (ST) in a statement today (June 30) stated that the electricity tariff rebate of 1.20 cents/kWh given in the preceding period for electricity consumers in Sabah and Labuan will be terminated on June 30, 2018," he said in a statement.

According to Abdul Nasser, for the June-July 2018 transition period, the rebate calculation would be pro-rated.

Domestic users with monthly usage of 300 kWh and below would not experience any change in their electricity bills, he said.
